

Silver Pro Restaurant

5.8 Release Notes

January 18, 2022

With our latest version, we're bringing you more great features that will make running your business even smoother and more efficient. For detailed information and articles, log into your back office and click **HELP**.

CASHLESS STORES

You can now remove the "Cash" payment option at your store. By going cashless you can process customer transactions faster. Cashless mode is only available for SecurePay (Monetra) gateway in v5.8.

BACK OFFICE CONFIGURATION

To get started with cashless,

1. Log into your Silver Back Office.
2. Navigate to **Settings > Payments > Accepted Payment Methods**.
3. Uncheck **Cash**.
4. Save changes.

Accepted Payment Methods	
Cash	<input type="checkbox"/>
Check	<input type="checkbox"/>
Prepaid Coupons	<input type="checkbox"/>
Credit Cards	<input checked="" type="checkbox"/> Integrated <input type="checkbox"/> Non-integrated <input type="checkbox"/> Payment Terminal
Gift Cards	<input checked="" type="checkbox"/> Integrated <input type="checkbox"/> Non-integrated

POINT OF SALE

Once Cash is disabled from the Back Office and a data sync is complete, the Cash tender button will not be available on the point-of-sale stations in the store. The point-of-sale payment screen will now display remaining payment options configured. (Example below: Credit and Gift card only)

The screenshot shows the Silver Pro Restaurant Point of Sale interface. At the top, there are navigation icons and the Silver Pro logo. Below that, there's a header with 'Assign customer' and 'Order 10600002'. The main area displays a 'TICKET' for 'Coffee Espresso, 8oz' priced at \$2.00. On the right side, there are two buttons: 'Credit Card' and 'Integrated Gift', both of which are highlighted with a red box. Below these buttons, there are options for 'Hold Card' and 'SPLIT PAYMENT OPTIONS' including 'All On One' and 'Equal Amounts'. At the bottom, there's a summary section showing 'Subtotal \$2.00', 'Tax \$0.14', and 'Due: \$2.14'. There are also buttons for 'Save', 'Print', 'No Sale', 'Delete', and 'Discount'. A small 'Ticket 1 of 1' pop-up is visible in the bottom right corner.

MANUALLY SEND ORDERS TO KITCHEN

In Quick Service mode on Silver Pro Android v5.8 you can now manually fire items from the point-of-sale to the kitchen by tapping the **Send** button on the order screen. The system will continue to support automatic firing when you tap **Pay** or back out of an order.

This feature is already supported for quick service on iOS and table service on iOS and Android.
